Digital and Analog High Pressure Hydraulic Test Kits from Gradall

Every service team needs these Gradall High Pressure Hydraulic Test Kits to help assure optimum equipment performance and life. Use them to check all hydraulic pressures including important pilot pressure and load sensing pressures.

New Digital Test Kits are easy to read and extremely accurate, measuring from 500 to 10,000 psi. Also available are our traditional Analog Test Kits.

You can order complete kits with all fittings, adaptors, hoses, o-rings and quick connect devices that fit both the digital and analog testers. Also available are individual replacement parts for each kit.

Digital Gauge Kit

Part No.	Description	Qty.
80404127	Complete Digital Gauge Kit	1
83674044	Rubber Boot	1
83674046	Direct Gauge Adapter	1
77134198	Adapter 20/20 Hose Union	1
77133259	High Pressure Hose 98.425 IN	1
80904004	High Pressure Hose 192" Long	1
80604031	1/8 NPT Test Point	1
91033032	1/4 NPT Test Point	1
80604035	7/16 UNF Test Point	1
77133089	9/16 UNF Test Point	1
80404136	SAE-6 O-Ring Vial	1

Analog Gauge Kit

Part No.	Description	Qty.
80904003	Complete Analog Gauge Kit	1
83674046	Direct Gauge Adapter	2
77134198	Adapter 20/20 Hose Union	1
77133259	High Pressure Hose 98.425 IN	1
80904004	High Pressure Hose 192" Long	1
80604031	1/8 NPT Test Point	1
91033032	1/4 NPT Test Point	1
80604035	7/16 UNF Test Point	1
77133089	9/16 UNF Test Point	1
80404136	SAE-6 O-Ring Vial	1
